

Amazon SDET Intern

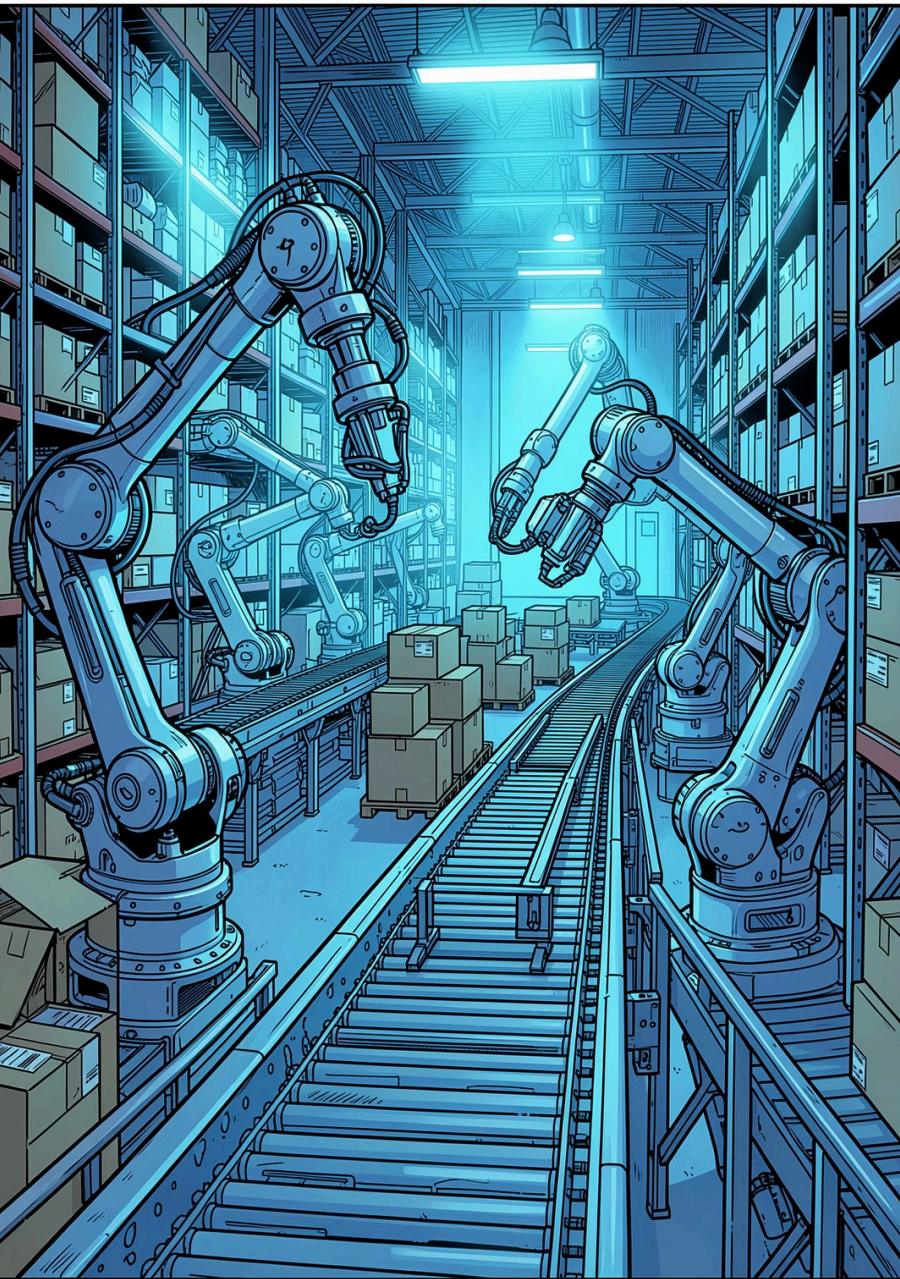

Placement Prep Brief · B.Tech 4th Year · CSE / IT / ECE

BANGALORE · HYDERABAD · CHENNAI · PUNE

₹80K-₹1.25L/MONTH

PPO >70%

11,000 HIRES IN 2026

Company Overview

Founded 1994

Jeff Bezos. World's largest e-commerce and cloud company. 1.5M+ employees globally.

AWS: 21% Revenue Growth

Q4 2025. AWS is Amazon's biggest profit engine — SDET interns often land on AWS teams.

What You'll Do

Build tools ensuring Amazon's services never go down — production-scale systems from day one.

Hiring Process – 5 Stages

1

Resume + Interest Form

Apply via amazon.jobs or campus cell. Rolling review from July-August.

2

Online Assessment

1hr 45min on HackerRank/Mettle – 2 DSA problems + 3 behavioural sections. All 4 sections mandatory.

3

Technical Round 1

45-60 min. 1-2 DSA problems (graphs/hashing) + Leadership Principles STAR stories.

4

Technical Round 2

SDET-specific: STLC, test case design, black-box vs white-box, regression/sanity. May include light system design.

5

Bar Raiser / HR

Independent evaluator assesses 16 Leadership Principles. Non-negotiable – failing means no offer.

Total process: **2-4 weeks**. Virtual for off-campus.

Technical Stack

Languages

Java · Python · C++ · TypeScript
— pick one, know it deeply

Testing Tools

Selenium · TestNG · JUnit ·
PyTest · REST Assured · Appium

AWS Cloud

EC2 · S3 · Lambda · DynamoDB ·
CloudWatch · IAM

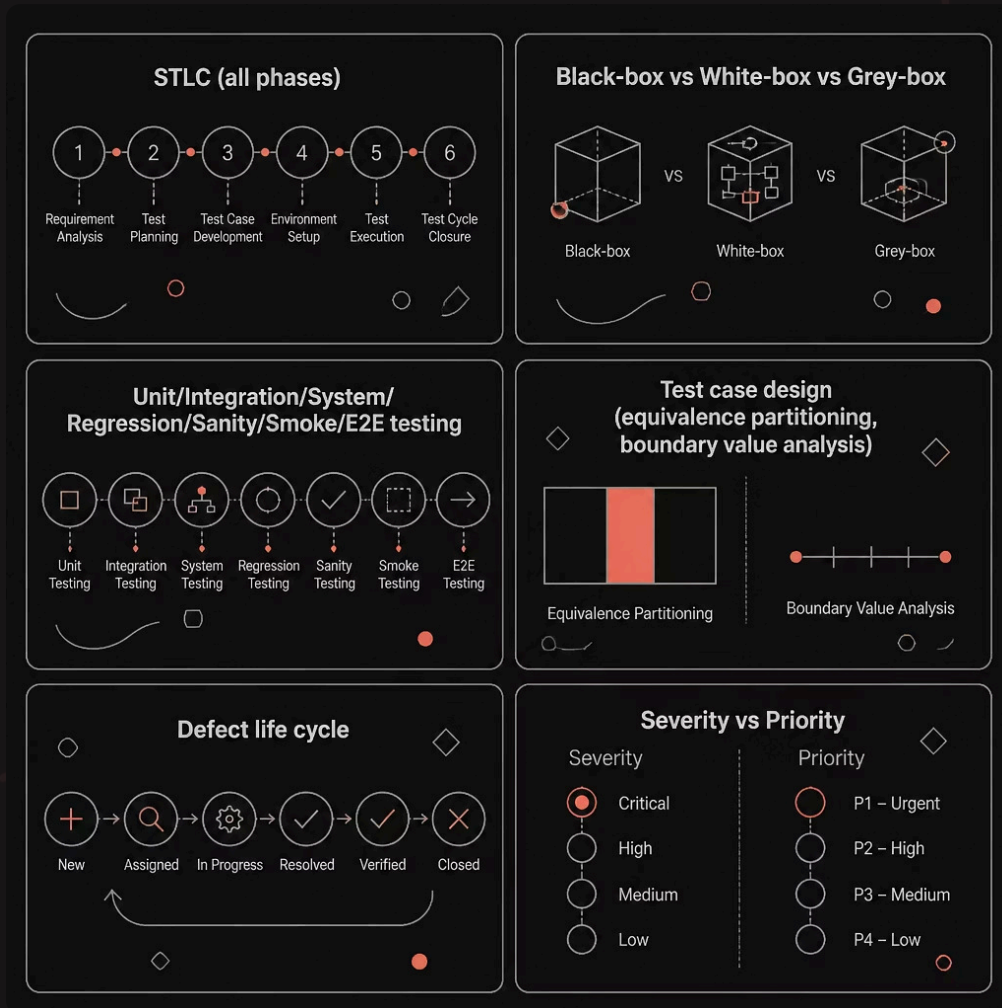

CI/CD & DevOps

Git · Jenkins · GitHub Actions ·
Docker · basic Kubernetes

Databases

SQL (JOINS, indexing) · NoSQL
(DynamoDB)

QA Theory – Expect Direct Questions

Why This Matters

Amazon dedicates a **full interview round** to testing concepts. Most CS students skip this – don't.

- Be ready to write positive, negative, and edge cases for a feature (e.g., "Login") live in the interview.

Recent News (2025–2026)

11,000 New Hires in 2026

AWS CEO confirmed: *"We are hiring just as many software developers as we ever had."* Intern seats are protected and growing.

AWS Accelerating

21% Q4 2025 revenue growth. Despite 30K layoffs (ops/HR/management), AWS and technical roles are expanding.

AI-First Engineering

Amazon is deploying AI agents to automate repetitive tasks — SDETs now build frameworks, not run manual scripts.

PPO >70%

The internship is effectively a 6-week interview. Strong performers convert to SDE-1 / SDET-1 offers.

Eligibility Criteria

Target Batch	Final year (2026) or pre-final year (2027 for 6-month programs)
Degrees	B.Tech / B.E. / M.Tech in CSE · IT · ECE · Data Science / STEM
CGPA	7.0/10 minimum (Tier-1 campuses may shortlist from 8.0+)
Backlogs	Zero preferred; max 1 pending permissible per official JD
Stipend	₹80,000 – ₹1,25,000/month (varies by team & location)
Duration	6 weeks (summer) or 6 months (PPO track) · In-person / hybrid
Locations	Bangalore · Hyderabad · Chennai · Pune · Delhi NCR

Apply via **amazon.jobs/university**, campus placement cell, LinkedIn, or Amazon Hackathons (WoW, ML Summer School).

5 Targeted Prep Tips

01

Master the 16 Leadership Principles

Prepare 2 STAR stories per LP. Top tested: Customer Obsession · Ownership · Dive Deep · Earn Trust · Bias for Action.

02

Solve 100+ LeetCode Medium Problems

Focus: arrays, trees, graphs, DP, two-pointers. Time yourself — Amazon tests efficiency, not just correctness.

03

Build Deep QA Theory

STLC, test case design (positive/negative/edge), defect severity vs priority. Most CS students skip this — don't.

04

Get Hands-On with AWS

Free-tier account: deploy on EC2, store in S3, set up Lambda. Practical exposure > theory.

05

Frame Projects as Test-Coverage Stories

Not "I built an app" — but "I built an app with 40 test cases covering payment failures, race conditions, and session expiry."
